

- Remove all linens and pillows from beds and couches.
- Launder bedding and clothing, especially those that are on the floor, on the highest heat setting. Clean clothes hanging up or in drawers do not need to be washed or moved.
- Seal clean clothes and bedding in trash bags and leave them in the middle of the kitchen or bathroom.
- Remove all clutter from floors, especially around and under beds and headboards.
- Clear closet floors and shelving.
- Remove light switch and outlet covers.
- Although most furniture is treatable, if you decide to throw any furniture away, please make it unusable or mark it as "DON'T TAKE."
- Cover fish tanks with a towel and turn off pumps.
- Move furniture 2 feet away from baseboards.

All people and pets must vacate the home for at least 4 hours.
 Infants, seniors, pregnant women, and anyone with respiratory conditions are encouraged to stay out for at least 24 hours.

IMPORTANT

If this preparation list is not sufficiently completed, the technician reserves the right to reschedule treatment. Fees may be assessed. Additionally, our technicians may be lifting, moving, or tilting furniture and mattresses. While we are focused on the treatment process, you are responsible for putting all items back in place. Please safely store away any breakable or valuable items that could possibly be damaged as we are not responsible for any damage to property.

Please note that it may take a few days to a few weeks in order for the treatment to eliminate the infestation. This treatment includes a 90 day free call back period. If you are still seeing live bed bugs or getting bitten, schedule free resprays every two weeks for up to 90 days.
